How Blessing Care on Demand works in 4 easy steps:

1. Employee requests a visit with a clinician via smart phone, computer, or tablet.
2. Within minutes they're connected to an experienced, board-certified provider or nurse practitioner.
3. Provider will treat the employee, may make a diagnosis and recommend a course of treatment. If appropriate, the treatment may include a prescription or for more complicated health issues, the employee would be referred back to the health-system for in-person care.
4. After the visit, employees will receive an easy-to-read email visit summary.
