RE: *City of Hannibal – Road Improvement Process Spring Schedule & Project Update*

DATE: *April 1, 2019*

CONTACT: *Angelica N. Zerbonia, MRCC, CMO – City Clerk
(573) 221-0111, ext. 209*

Mayor James R. Hark discusses the City’s Road Improvement Process, spring schedule and program update. “Spring will kick off the road improvement project. After meeting with the engineer, a list of anticipated streets have been developed and the reconstruction is to begin very soon,” stated Hark.

“This program continues to be an exciting project and is very beneficial to our community as a whole. Thus far the City has completed more than 144 streets and we anticipate an additional 37 streets to be completed by the contractor this year.” “This does not include those streets and alleys that will be handled “in-house” by our qualified street department, we would anticipate 40-45 streets/alleys being complete before the 2019 construction season concludes,” continued Hark.

“This project and plan has been a work in progress as over the past three and a half years, the original plans have had to be updated and modified due to unforeseen circumstances, i.e. deteriorating roads, stormwater issues, water main breaks, etc. We do anticipate that the list will continue to be updated throughout this process, as once we are in an area, we may see other areas that need to be immediately addressed or other issues may arise. We sincerely appreciate all the cooperation and support from the entire community and I would think to personally thank the City staff and our citizens for helping to make this project such as success,” stated Hark.

****Completed Street Listing & 2019 Schedule Street Listing Attached****

###
