RE: Removal of Traffic Signals on Market Street at Old Eugene Field School

The DPW and BPW would like to request that the traffic signals located on Market Street near the former Eugene Field School be removed.

Since the Eugene Field School is no longer operating at that location, the traffic signals are no longer necessary to support school-related pedestrian or vehicular traffic. After reviewing current traffic flow and safety considerations, it has been determined that the signals are no longer warranted.

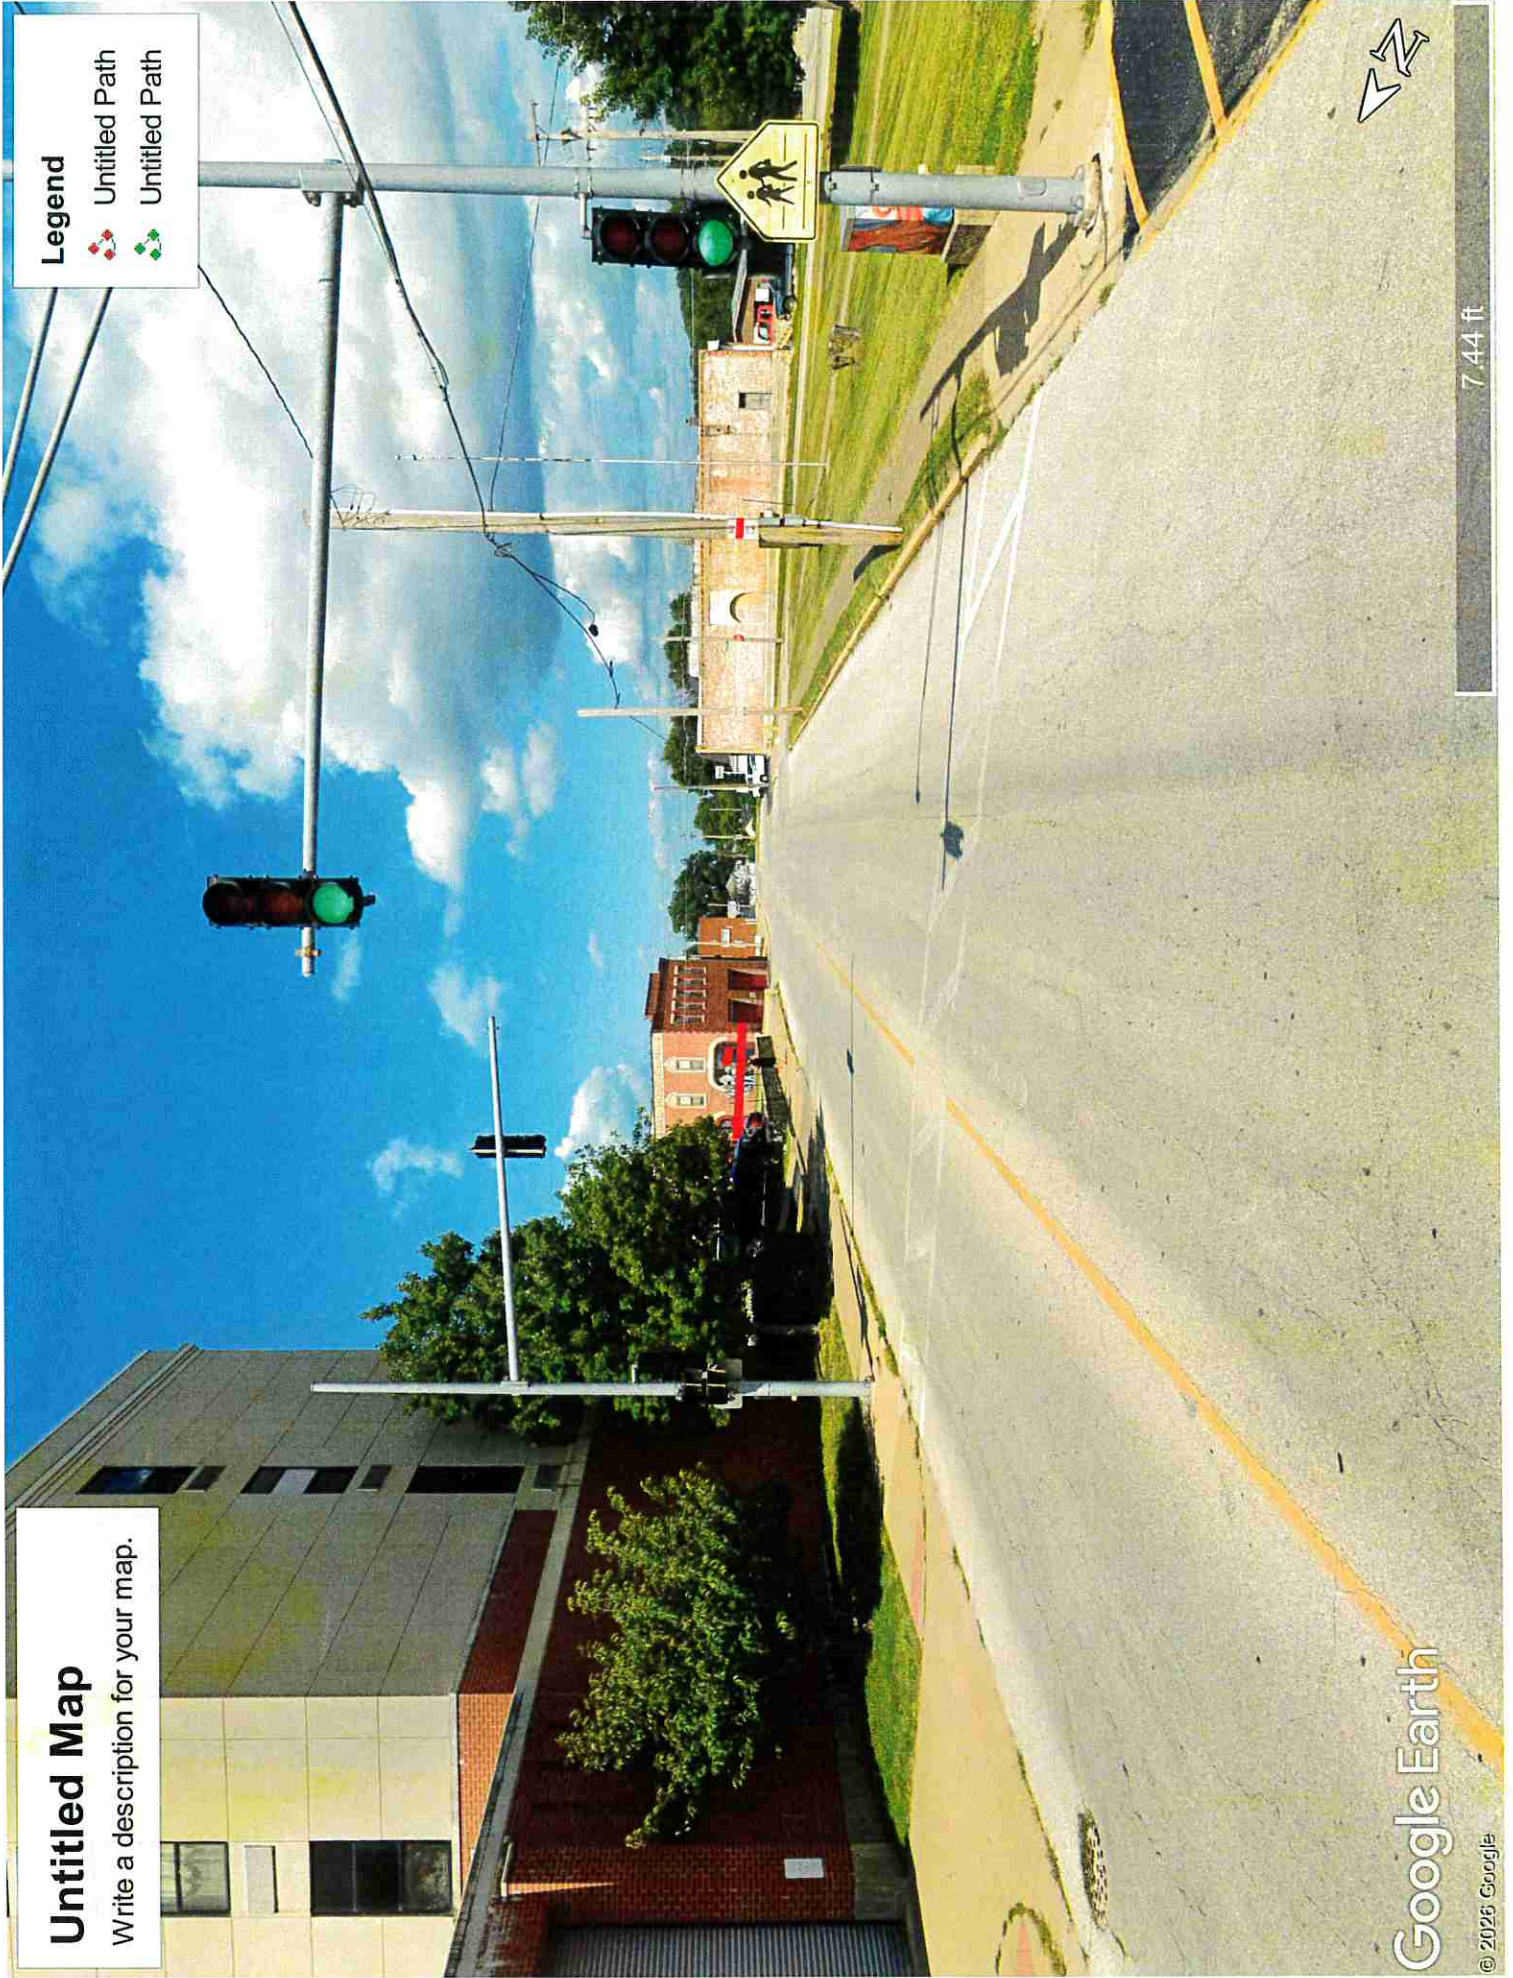

The removed equipment will be retained by the Board of Public Works and reused as needed for repairs and maintenance of other traffic signals throughout the city. This will allow the City/BPW to make efficient use of existing resources and reduce future costs associated with traffic signal repairs.

Subject: Purchase of New Computer for Hannibal Police Department Fleet

The Information Technology Department would like to purchase ten (10) Mobile Data Terminals (MDTs) to replace the aging MDTs in HPDs existing patrol fleet. (Manufactured in 2020-2021). These computers are experience heavy use daily, and have begun to show performance issues.

The new model is designed to support our needs with our upcoming Dispatch and Records system overhaul, including rugged touch screen allow officers to easily interact with the system.

The existing MDTs will stay in inventory and transition from their high use category to a low use category, supporting training and travel, cadets in the academy, emergency backup, ect.

Turn Key Mobile has a Sourcewell contract (#090122PNA) and has provided the City a low quote of \$30,860.00.

Respectfully,

John P. Schweiss
